**REPORT OF THE BOARD
FINDINGS AND ORDER**

1. Hearing Date and Place: This matter came on for hearing before the Virginia Gas and Oil Board (hereinafter "Board") at 9:00 a.m. on **August 18, 2009** at the Russell County Conference Center Lebanon, Virginia.

2. Appearances: **Mark A. Swartz**, Esquire, appeared for the Applicant; and Sharon M.B. Pigeon, Assistant Attorney General was present to advise the Board.

3. Jurisdiction and Notice: Pursuant to sections 45.1-361.1 *et seq.*, Virginia Code, as amended, the Board finds that it has jurisdiction over the subject matter. Based upon the evidence presented by the Applicant, the Board also finds that the Applicant has (1) exercised due diligence in conducting a meaningful search of reasonably available sources to determine the identity and whereabouts of each gas and oil owner, coal owner, or mineral owner, or in the case of conflicting claims to the ownership of the coalbed methane gas, each person identified by Applicant as a potential owner of the coalbed methane gas underlying the area described at paragraph 7.h below and in **Exhibit A** attached hereto; and (2) has given notice to all parties so identified (hereinafter sometimes "person(s)" whether referring to individuals, corporations, partnerships,

according to standard procedures and provisions of the Nora Order which allow wells to be drilled outside drilling windows; or

(ii) If a 58 acre square with the proposed well at its center lies entirely or partially within any Nora Drilling Unit(s) which is subject to existing pooling orders, the Inspector shall refer the permit application to the Board for its recommendations concerning correlative rights considerations, modification of pooling orders, and escrow provisions. Alternatively, the Unit Operator may present a pooling proposal directly to the Board prior to filing a permit application. No permit under this paragraph ii. shall be issued until the Board has acted on the matter.

7. Special Findings:

- a. Applicant's proposed field rule modification is not an unreasonable or arbitrary exercise of the owner's right to explore for or produce gas;
- b. The Applicant's proposal would not unreasonably interfere with the present or future mining of coal or other minerals;
- c. The acreage to be embraced in the Drilling Units affected by and/or created by this Modification Order shall be as set forth above and in **Exhibit A1** attached hereto.
- d. The formations subject to this Modification Order are described in the OGCB Order entered 3-26-89, as amended.
- e. The boundaries of the Drilling Units are the same as heretofore established by the OGCB Order entered 3-26-89, as amended.
- f. Unit Operator's production simulations indicate that drilling of an additional well in each Unit could facilitate the recovery of an additional 250,000 MCF of gas per Unit within 10 years of drilling.
- g. The boundaries of any Drilling Units created subsequent to this Modification Order shall be according to paragraph 6.c.ii. above and as defined by Board action specific to individual units.
- h. The acreage subject to this Modification Order is depicted in **Exhibit A1** hereto and is more specifically described as follows:

Beginning at a point, Virginia State Plane NAD 27 coordinate of N:308024.440 E:956708.420; S87°47'05" E 12792.60 feet to a point; thence S02°07'15"W 12592.45 feet to a point; thence S87°49'50" E 1599.52 feet to a point; thence S02°05'29" W

1600.78 feet to a point; thence N87°54'01" W 19202.20 feet to a point; thence N02°09'46" E 3197.36 feet to a point; thence S87°49'41" E 1600.60 feet to a point; thence N02°09'23" E 8001.31 feet to a point; thence S87°57'02" E 3198.77 feet to a point; thence N02°10'13" E 3021.54 feet to a point of beginning, containing approximately **5182.57** acres.

i. Having considered the evidence presented, the Board found no reason to establish any allowable production rates for the wells contemplated by this Modification Order;

j. Except as herein specifically modified, the proposed Drilling Units more fully described above and in **Exhibit A1** attached hereto shall be developed and produced in compliance with the OGCB Order entered on 3-26-89 regarding the Nora Field, as amended.

k. This Modification Order shall be effective as of the date of the hearing, to-wit: **August 18, 2009**.

8. Conclusion: The relief granted hereby will assist in enhancing production from existing wells, will assist in more efficiently recovering coalbed methane gas from the area in question, will prevent waste, and will continue to protect the correlative rights of all owners and claimants. Therefore, the relief and all terms and provisions set forth above be and are hereby granted and IT IS SO ORDERED.

9. Effective Date: **August 18, 2009**.
