) DATED 04/29/92

LEGAL DESCRIPTION:

IN THE CONSOLIDATED
COAL COMPANY BUCHANAN NO. 1
MINE IN THE HURRICANE MAGISTER-
IAL DISTRICT OF BUCHANAN
COUNTY, VIRGINIA AS MORE
PARTICULARLY DEPICTED ON EXHIBIT
B ATTACHED HERETO AND MADE A
PART HEREOF

REPORT OF THE BOARDFINDINGS AND ORDER

1. Hearing Date and Place: This cause came on for hearing before the Virginia Gas and Oil Board (hereafter "Board") at 9:00 a.m. on June 22, 1993 at the Virginia 4-H Center, Abingdon, Virginia.

2. Appearances: Elizabeth A. McClanahan of Penn, Stuart, Eskridge and Jones appeared for Applicant; Sandra B. Riggs, Assistant Attorney General, was present to advise the Board.

3. Notice and Jurisdiction: The Board finds that it has jurisdiction over the subject matter. Based upon the evidence presented by Applicant, the Board also finds that the Applicant has (1) exercised due diligence in conducting a meaningful search of reasonable available sources to determine the identity and whereabouts of persons of record having or claiming the rights to Coalbed Methane Gas in the coal seams below the Tiller Seam, including the Lower Castle, Upper Seaboard, Greasy Creek, Middle Seaboard, Lower Seaboard, Upper Horsepen, Middle Horsepen, C, War Creek, Pocahontas No. 10, Lower Horsepen, Pocahontas No. 9, Pocahontas No. 8, Pocahontas No. 7, Pocahontas No. 6, Pocahontas No. 5, Pocahontas No. 4, Pocahontas No. 3, Pocahontas No. 2 and various unnamed coal seams or pools, and all zones in communication therewith and all productive extension thereof underlying the Subject Drilling Units (hereafter collectively referred to as "Subject Formations"), and (2) has given notice to those parties set forth in Exhibit C (hereafter sometimes "person(s)" whether referring to individuals, corporations, partnerships, associations, companies, businesses, trusts, joint ventures or other legal entities) entitled by Sections 45.1-361.19

and 45.1-361.22, Virginia Code, 1950 as amended, to notice of this application. Further, the Board has caused notice of this hearing to be published as required by Section 45.1-361.19B, Virginia Code, 1950 as amended.

4. Amendments: Application, page 2.

5. Dismissals: None.

6. Reasons Relief Should Be Granted: The Application and/or the uncontroverted testimony and evidence presented to the Board at the hearing reflect that:

a. The persons named in Exhibit C hereto may be owners of Coalbed Methane interests in Subject Drilling Units in the Subject Formations underlying and comprised of the property more particularly described for each of said Subject Drilling Units in Exhibit A hereto (herein "Subject Lands").

b. Pocahontas Gas Partnership claims control of 99.58 percent of the Pocahontas No. 3 seam of coal, 84.762 percent of all the coal below drainage less the Pocahontas No. 3 seam; 84.617 percent of the oil and gas estate, and 99.972 percent of the methane gas leasehold estate underlying the lands described in Exhibit A (herein "Subject Lands"). Applicant claims ownership of the right to explore for, develop and produce the methane gas underlying 99.58 percent of the Subject Lands.

c. Subject Drilling Units are located within the Oakwood Coalbed Gas Field. Applicant heretofore requested and was granted, by VGOB Order No. 91-1119-0160, an exception to the Oakwood Coalbed Gas Field Order No. OGCB 3-90 dated May 18, 1990, as amended by VGOB Order No. 93-0216-0325 and VGOB Order No. 93-0316-0348, (the "Oakwood I Order") for Subject Lands.

d. The strata within the coal-bearing area of Consolidation's Buchanan No. 1 mine underlying Subject Lands consists of sandstone, shales and coals of the Lower Pennsylvania Pottsville Group. The formations in ascending stratigraphic order are: Pocahontas (which contains the Pocahontas No. 3 seam); Lee and Norton. The mine development plan as well as federal and state laws and regulations for methane levels in coal mines require the ventilation of methane gas from the mine. Section 45.1-361.20 of the Code of Virginia requires that the drilling units conform to the mine development plan and that well spacing correspond with mine operations.

e. The Board has heretofore entered pooling orders pursuant to § 45.1-361.22 of the Code of Virginia, 1950 as amended, affecting certain of Subject Drilling Units (herein "Pooled Units") as follows:

a. NELW9 - VGOB 91-1217-0169, entered April 29, 1992, and filed in Deed Book 390, Page 646.

b. NELW10 - VGOB 92-0218-0190, Amended Order entered June 9, 1992, and filed in Deed Book 393, Page 831.

8. Relief Granted: Pursuant to Va. Code Ann. § 45.1-361.1, et seq. (Michie Supp. 1991), VR 480-05-22.1, et seq., Gas and Oil Regulations (1991) and VR 480-05-22.2 (1991), et seq., Virginia Gas and Oil Board Regulations; the Virginia Gas and Oil Board hereby modifies and amends in the following respects its Order entered in VGOB 91-1119-0160 establishing certain exceptions to the Virginia Gas and Oil Conservation Board Order No. OGCB 3-90, as amended by VGOB 93-0216-0325 and VGOB Order No. 93-0316-0348 ("Oakwood I Order"):

a. To conform to existing mine plans and pursuant to § 45.1-361.20, Code of Virginia, 1950 as amended, the Board hereby authorizes the Applicant to permit and convert vertical ventilation holes in Subject Drilling Units to coalbed

methane wells and/or to permit and drill coalbed methane wells in Subject Drilling Units in the number and to the extent permissible within the well spacing and well density requirements hereafter set forth.

(1) Well Spacing Within Each of Subject Drilling Units: No coalbed methane well shall be located closer than 300 feet from an boundary of any of Subject Drilling Units or closer than 300 feet from any other coalbed methane well, unless the Inspector, upon application and proper showing by Applicant to the Inspector, grants an exception allowing any such well to be located closer than 300 feet from any such boundary or closer than 300 feet from any other coalbed methane well, as applicable.

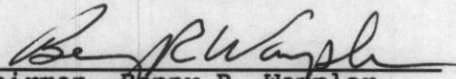

(2) If the Inspector approves a coalbed methane well to be located within any of the Subject Drilling Units at a location which is closer than 300 feet from the boundary of any of the Subject Drilling Units, or at a location closer than 300 feet from any other coalbed methane well, then in either of those events, the Inspector's approval shall be and is conditioned upon the Applicant's agreement that it shall not seek or be entitled to recover the cost of said well by way of application to the Board or action by the Board under authority of § 45.1-361.21.C of the Code of Virginia, 1950 as amended.

b. The Orders pooling any of the Subject Drilling Units are not affected or amended in any way by the granting of the relief herein, and allocation of production for any well drilled or converted in reliance on the relief granted herein shall be governed by the allocation provisions contained in Board Order No. VGOB 91-1119-0160.

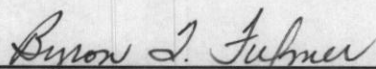

c. The exceptions to the Oakwood I Order set forth in Paragraph 8 of the Board's Order in VGOB 91-1119-0160, as amended by Paragraph 8 of this Order, shall apply to the Subject Drilling Units only with respect to the production of Coalbed Methane Gas in Subject Formations underlying and comprised of Subject Lands. The Oakwood I Order remains applicable to Subject Drilling Units, subject only to the exceptions granted in VGOB 92-0121-0180, as modified by Paragraph 8 above.

9. Effective Date: This Order shall be effective on the date of its execution.

DONE AND EXECUTED this 1st day of Oct., 1993, by a majority of the Virginia Gas and Oil Board.

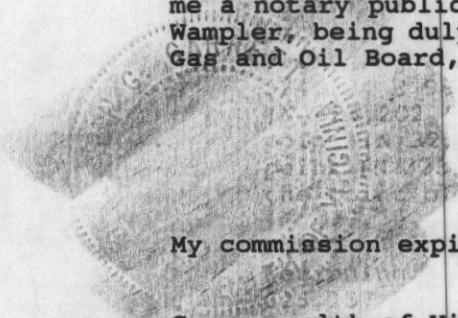

Chairman, Benny R. Wampler

DONE AND PERFORMED this 1st day of October, 1993, by Order of this Board.

Byron Thomas Fulmer
Principal Executive to the Staff
Virginia Gas and Oil Board

Commonwealth of Virginia)
County of Washington)

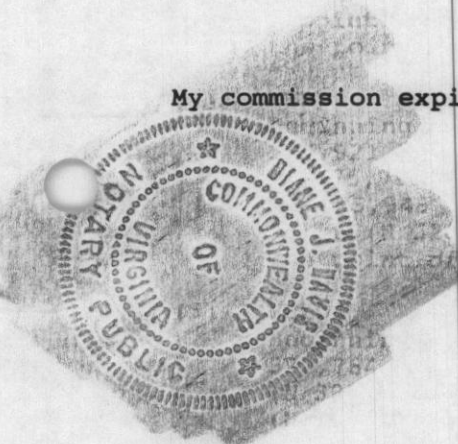

Acknowledged on this 1st day of October, 1992, personally before me a notary public in and for the Commonwealth of Virginia, appeared Benny R. Wampler, being duly sworn did depose and say that he is Chairman of the Virginia Gas and Oil Board, that he executed the same and was authorized to do so.
