**Communication Memorandum No. 01-2026**

**TO:** All Licensed Mine Operators

**FROM:** J. Phil Skorupa, Director 

**SUBJECT:** DMM182 Annual Contractor Report

**DATE:** January 15, 2026

The Division of Mineral Mining has carefully considered the Annual Reporting Option for licensed operators originally offered in 2008 in effort to reduce filing requirements for our operators. It is our determination that this reporting option has not been as heavily utilized as expected, nor has it proven to alleviate the concerns for which it was originally adopted. Therefore, the division has made the decision to stop offering this reporting option as of January 1, 2026.

**DIVISION DIRECTIVE:**

*All mine operators are required to submit a list of independent contractors working at their mine site. This list must be maintained, and any changes should be submitted to DMM within 30 days of the occurrence, such as the stopping or starting of services. This list shall be verified and updated at permit renewal. Subsequent updates should be submitted using the DMM e-Forms system form DMM171.*

## REFERENCE:

*"Independent contractor" means any person who contracts to perform services or construction at a mine.*

*§ 45.2-1126. Application for license.*

*A. Each application for a license shall be submitted by the person who will be the licensed operator of the mine. No application for a license or a renewal thereof is complete unless it contains the following:*
